

Biodegradation PowerGranules BIO®

The particles generated when using PowerGranules BIO in granule ware washing machines from Nordisk Clean Solutions AB have successfully been tested according to ISO 17556 and reached 94% degradation in 24 months. Hence, particles are not considered microplastics, according to EU Regulation 2023/2055 (pass criteria: degradation of ≥ 90 %).

[Regulation - 2023/2055 - EN - EUR-Lex \(europa.eu\).](#)
